**Title:** LIBIDO ON STEROIDS

Presented as a Drama/erotic/thriller, the audience is already trained in default streaming products like: The Affair, Big Little Lies, Obsessed, Fatal Attraction, Unfaithful, the endless Netflix marriage-collapse shows. What sets this story apart is an inherited asexual problem, a subject that has never been explored on the screen. A new topic that plays to a wide adult audience rather than an erotica niche.

It has the potential as a focused single episode or a bingeable six-episode series.

Congratulations!
